EXHAUSTS - STAINLESS STEEL

Double 'S' is recognised as one of Europe's leading manufacturers of stainless steel automotive components with a wide selection of systems for off-road.

Using only the finest austenitic and ferritic stainless steels and employing the latest in CNC mandrel and empty tube bending, measuring and inspection equipment, means increasingly high levels of product quality.

All Double 'S' exhaust systems carry a lifetime guarantee. Double 'S' will replace or repair any part of their Stainless Steel Exhaust Systems found defective through corrosion during the period that the system remains the property of the original owner. Provided that the system is inspected by a garage or exhaust fitting centre annually to ensure that the rubber and other mountings are in good condition.

SILENCER REPLACEMENT PIPES

These are 304 stainless steel exhaust silencer replacement pipes. They are designed to directly replace the front silencer in your TD5 and TDi exhaust system. Once replaced the pipe will give your vehicle more power or reduced fuel consumption with only a small increase in cabin noise. CNC mandrel formed for a perfect fit with laser cut flanges, the pipes have a Sateen finish, deep luster appearance. Quick and easy to install.
